

FLUMOOD® - QUARZOMOOD®

Dopo test molto accurati, antoniolupi ha deciso di inserire nelle sue collezioni, due nuovi materiali esclusivi e brevettati, dalle caratteristiche straordinarie il "FLUMOOD®" e il "QUARZOMOOD®".

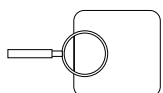

Entrambi si sono rivelati perfetti per la realizzazione di lavabi e top, e sicuramente data la loro duttilità unita alle prerogative ecologiche, di compattezza, non porosità, uniformità, atossicità, verranno utilizzati per altri prodotti. Con la loro superficie facilmente pulibile e la facilità di essere ripristinati anche in caso di graffi, segni di bruciature o derivanti dall'uso quotidiano, si rivelano infatti due materiali eccezionali per essere utilizzati nell'ambiente bagno.

"FLUMOOD®" è disponibile nel colore bianco, nella finitura satin e in quella texture, mentre "QUARZOMOOD®" oltre che nelle due finiture, è disponibile in una gamma di 8 colori.

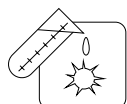

After careful testing antoniolupi has decided to insert into its collections two new exclusive and patented materials with extraordinary characteristics, FLUMOOD® and QUARZOMOOD®.

Both have proven to be perfect for making sinks and tops and given their ductility and environmental prerogatives of being compact, non porous, uniform and non toxic will be used for other products. With their easy to clean surface and can easily be restored in case of scratches, burn marks or everyday use reveal to be two exceptional materials for the bathroom.

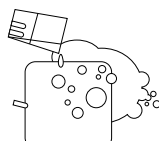

FLUMOOD® is available in a white colour with a satin or textured finish while QUARZOMOOD® in the two different finishes is available in a range of 8 colours.
